CAREER OBJECTIVE

Final-year Electronics and Communication Engineering student with hands-on experience in embedded systems (Arduino, ESP32) and software development using C, Java, and Python. Has built complete, working projects end-to-end — including a database-backed attendance system with face verification, an AI-driven early autism screening platform, and a full-stack pharmacy compliance and anti-fraud tracking platform — rather than stopping at prototypes. Adaptable, detail-oriented, and eager to grow as an engineer while contributing to real-world, impactful products.

ACADEMIC PROJECTS

Smart Attendance System

Personal / Portfolio Project

Face Verification, Anomaly Detection & RFID

- Built a real-time attendance tracking system combining RFID hardware tagging with microcontroller integration, eliminating proxy attendance.
- Extended the system with face verification and anomaly detection to catch spoofed or irregular check-ins.
- Added offline-sync support so attendance logs capture and reconcile correctly even without a live connection.
- Maintains a database that stores registered user information and logs each attendance entry with a second-precision timestamp.

S.E.E.D – System for Early Detection and Development

Hackathons & Paper Presentation

AI-Powered Early Autism Risk Screening Platform

- Designed an AI platform for early autism risk screening, using passive video analysis for younger children and gamified app-based sessions for older children.
- Integrated M-CHAT-R/F clinical screening criteria directly into the assessment pipeline for clinically grounded results.
- Built a referral pathway that routes flagged cases to telehealth specialists for follow-up.
- Designed as a parent-facing, direct-to-consumer product rather than a clinic-only tool.

RCCP – Pharma Reverse Chain Compliance Platform

Hackathon Project

Full-Stack Anti-Fraud Tracking System for Expired Medicine Disposal

- Built a full-stack platform that tracks expired medicines from retail shelf to verified destruction across retailer, distributor, manufacturer, and biomedical waste facility roles.
- Designed an append-only ledger architecture enforcing batch-level quantity conservation, blocking reused, cloned, or invented batch numbers at the point of sale.
- Implemented role-based dashboards, a public batch-verification lookup, and a tamper-evident audit hash chain using Next.js, TypeScript, PostgreSQL, and Prisma.
- Wrote automated invariant, lifecycle, and audit-chain test suites plus an HTTP-driven acceptance script to validate business rules end-to-end.

EDUCATION

Bachelor of Engineering in Electronics and Communication Engineering

2023 – Present

Velammal Engineering College, Chennai

- CGPA: 8.01

Higher Secondary Certificate (HSC)

Completed 2023

Bethany Navajeevan CBSE School — First Class

- Percentage: 81.17%

Secondary School Leaving Certificate (SSLC)

Completed 2021

Bethany Navajeevan CBSE School — First Class

- Percentage: 91.50%

INTERNSHIPS

Embedded Systems Intern — Globesci Technologies Pvt Ltd.. Exposure to real-time IoT implementations.

1 Week

Intern — Tamil Nadu Power Generation Corp. Ltd. — North Chennai TPS, Stage 2. In-depth exposure to the power generation process via live visits to multiple operational departments.

19 Days

TECHNICAL SKILLS & TOOLS

Programming: C, Java, Python, HTML & SQL (Basics)

IoT & Embedded Systems: Arduino UNO, ESP32

Strong Subjects: Java, Basic DSA Concepts

Soft Skills: Adaptability, Quick Learner, Time Management, Attention to Detail, Communication

Languages: English, Tamil, Malayalam, Hindi, Japanese (Beginner)

ACHIEVEMENTS & PARTICIPATION

- HACKHAZARDS'26 International level Hackathon, NAMESPACE — Top 50–100 of 2600+
- National Level Project Competition 2K25, Velammal Institute of Technology — 2nd Prize
- EXPRO'26, Paper Presentation, Madras Institute of Technology (MIT) — 1st Runner-Up
- MEGATHON'26 (24 Hours Hackathon), Saveetha Engineering College — Participation
- INSTERA 2K25, Project Presentation, Sri Sairam Engineering College — Participation
- RACES'26, Inter-College Mini Project Presentation, Velammal Engineering College — Participation
- IETE Student Forum Certificate — Institution of Electronics and Telecommunication Engineers
- INDCON'26, Anna University — Participation
